

# Energy Security and Resource Efficiency in Somalia

**Client:**  
UK Department for  
International Development  
(DfID)

**Location:**  
Hargeisa, Somalia

**Start Date:**  
December 2013

**Completion Date:**  
February 2014

**Key Services:**  
▷ Market diagnostics  
▷ Field research  
▷ Feasibility study

In 2013, ASD was hired by the UK Department for International Development (DfID) to run a market diagnostic and identify feasible options for the design of the inception phase of Energy and Resource Efficiency in Somaliland.

## OVERVIEW

As part of the project ASD conducted field research, ran a background analysis of robust evidence on hybrid-grids, identified feasible options to achieve the impact outcomes and appraised feasible options for the design of the inception phase. In addition, ASD provided a detailed design of the selected option that met DfID requirements to inform business development.
