

Technical Assistance and Advisory Services for Solar PV Market Development

Client:

Energy Water and Sanitation
Authority (EWSA)

Location:

Kigali, Rwanda

Start Date:

July 2012

Completion Date:

March 2014

Key Services:

- ▷ Technical Assistance
- ▷ Advisory Assistance

This study, commissioned by the Energy Water and Sanitation Authority (EWSA) in Rwanda, provided technical assistance and advisory services for Solar PV market development. The project spanned 2 years from 2012 – 2014.

OVERVIEW

For this study, ASD completed an assessment of current electrician codes and expectations for PV electrician certification. ASD also assessed the options for standards, codes of practice and regulations. The local capacity to design, install, and service the various PV systems was assessed and thereafter key training needs were identified. ASD also assessed installation methods and modalities currently used as they relate to codes and standards. After sales services and capabilities were also studied. In addition, ASD then organized a standards and certification workshop regarding the finding of the Solar PV market in Rwanda.
